

Overall Results

- In 2009, the average score of fourth-grade students in San Diego was 236. This was higher than the average score of 231 for public school students in large cities.
- The average score for students in San Diego in 2009 (236) was not significantly different from their average score in 2007 (234) and was higher than their average score in 2003 (226).
- In 2009, the score gap between students in San Diego at the 75th percentile and students at the 25th percentile was 42 points. This performance gap was not significantly different from that of 2003 (37 points).
- The percentage of students in San Diego who performed at or above the NAEP *Proficient* level was 36 percent in 2009. This percentage was not significantly different from that in 2007 (35 percent) and was greater than that in 2003 (20 percent).
- The percentage of students in San Diego who performed at or above the NAEP *Basic* level was 77 percent in 2009. This percentage was not significantly different from that in 2007 (74 percent) and was greater than that in 2003 (66 percent).

Achievement-Level Percentages and Average Score Results

* Significantly different ($p < .05$) from district's results in 2009.

NOTE: Detail may not sum to totals because of rounding.

Results for Student Groups in 2009

Reporting Groups	Percent of students	Avg. score	Percentages at or above		Percent at Advanced
			Basic	Proficient	
Gender					
Male	51	237	77	37	7
Female	49	236	77	35	5
Race/Ethnicity					
White	27	255	94	62	14
Black	12	222	64	15	#
Hispanic	43	224	66	19	2
Asian/Pacific Islander	17	247	86	50	10
American Indian/Alaska Native	1	‡	‡	‡	‡
National School Lunch Program					
Eligible	61	224	66	19	2
Not eligible	39	255	94	62	14

Rounds to zero.

‡ Reporting standards not met.

NOTE: Detail may not sum to totals because of rounding, and because the "Information not available" category for the National School Lunch Program, which provides free/reduced-price lunches, and the "Unclassified" category for race/ethnicity are not displayed.

Score Gaps for Student Groups

- In 2009, male students in San Diego had an average score that was not significantly different from that of female students.
- In 2009, Black students had an average score that was 33 points lower than that of White students. This performance gap was not significantly different from that in 2003 (27 points).
- In 2009, Hispanic students had an average score that was 31 points lower than that of White students. This performance gap was not significantly different from that in 2003 (27 points).
- In 2009, students who were eligible for free/reduced-price school lunch, an indicator of low income, had an average score that was 31 points lower than that of students who were not eligible for free/reduced-price school lunch. This performance gap was wider than that in 2003 (21 points).

White – Hispanic Score Gap

* Significantly different ($p < .05$) from 2009.

White – Black Score Gap

* Significantly different ($p < .05$) from 2009.

NOTE: Beginning in 2009, results for charter schools not included in reporting Adequate Yearly Progress (AYP) are excluded from the district results. Statistical comparisons are calculated on the basis of unrounded scale scores or percentages.
